-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Applicant's election with traverse of Group I, claims 1-19, in the reply filed on 9/13/06 is acknowledged. The traversal is on the ground(s) that it would pose no inconvenience to search each group at one time. This is not found persuasive because the Groups are distinct inventions for the reasons set forth previously.

The requirement is still deemed proper and is therefore made FINAL.

The IDS received 8/2/04 has been entered and considered. No priority is claimed so the priority date is granted to the application date of this application, 4/1/04. Please review the specification for typos such as in paragraph 4, line 3, and paragraph 5, line 2.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Horlach.

Horlach (3,915,806) entitled "Specimen Holding Kit" teaches in the abstract, a pouch with compartments containing a swab and a medium. In column 3 lines 13-14, the medium may be Stuarts or Amies-Charcoal. See claim 1.

Lennon (4,963,325) entitled "Swab Expressor Immunoassay Device" teaches in column 2 lines 50-58, a swab device with a test material as shown in Fig. 1 is enclosed in a container. See the Figures.

Art Unit: 1657

All the features of the claims are taught by each of the above references for the same function as claimed.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5-19 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiply dependent claim. See MPEP § 608.01(n). Accordingly, the claims 5-19 have not been further treated on the merits.

Claims 1-4 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Each of the following applies in all occurrences.

Dependent claims must begin with a definite article. In claim 1 "monitoring a swab method" is unclear as to what may be intended because a swab is not a method. In claim 3 "various", "including", "such as", "preferably" render what may be intended to be a Markush group indefinite because one cannot tell what the members of the group may be. In claim 4 line 3, "the external environment" lacks antecedent basis.

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ramsay (EP 1 298 069 A2) is a related application.

Farrell (6,610,312) teaches pouches.
